OFFICES

7 Tampa Bay Locations

## OVERVIEW

# The Opportunity in Front of You

McFarland, Gould, Lyons, Sullivan & Hogan P.A. carries one of the most powerful competitive advantages in the Tampa Bay legal market: **80 years of continuous operation**, seven offices spanning the entire metro area, and eight distinct practice areas. Very few local law firms can make that claim.

The challenge is that none of this is being communicated effectively to Google, AI search platforms, or the thousands of potential clients searching for legal help across your markets every month. Your digital foundation has critical gaps that are costing you visibility — and more importantly, clients — right now.

This proposal outlines exactly what we found, what it will take to fix it, and what you can expect in return over the next 12 months.

**The short version:** Your firm's history, credentials, and geographic footprint are stronger than most of your competitors. We need to make sure Google and AI platforms know that. The strategy below does exactly that.

AUDIT FINDINGS

Where You Stand Today

We conducted a full technical and content audit of mcfarlandgouldlaw.com and your Google Business Profile presence across all seven locations. Here is what we found.

WHAT'S WORKING

- ✓ 80-year founding history (1946) — major trust signal
- ✓ 7 physical offices across Tampa Bay metro
- ✓ 8 distinct practice areas — broad keyword surface
- ✓ Christie Sullivan: FBI Tampa CAAA Board (Feb 2025)
- ✓ Chuck Sullivan: Martindale-Hubbell Gold Champion
- ✓ Active blog in 2025 — 9 posts this year
- ✓ Free consultation CTA is prominent
- ✓ Multi-attorney team (2 partners, 2 associates)

CRITICAL GAPS

- ✗ No location pages — Wesley Chapel returns a 404 error
- ✗ No FAQ schema on any practice area page
- ✗ No LegalService or Attorney structured data
- ✗ No service + city combination pages
- ✗ Attorney credentials buried in blog posts, not bios
- ✗ No reviews or case results page
- ✗ 4-year blog gap (2020–2024) — thin content history
- ✗ No sitemap confirmed submitted to Google

**Most urgent:** Your Wesley Chapel office has no location page on your website. This means Google cannot confirm you serve that market, your GBP listing for that office has no supporting web page, and every potential client in Wesley Chapel searching for your services is being sent to a competitor.

## SEARCH DEMAND

## What Your Clients Are Searching For

These are the searches happening right now in your markets. None of them have a dedicated, optimized page on your website.

| KEYWORD                                | MONTHLY SEARCHES | COMPETITION | YOUR PAGE TODAY   |
|----------------------------------------|------------------|-------------|-------------------|
| Personal injury attorney Clearwater FL | 200–400          | Medium      | No dedicated page |
| Personal injury attorney Wesley Chapel | 100–200          | Low         | 404 error         |
| DUI attorney Clearwater                | 100–300          | Medium      | No dedicated page |
| Estate planning attorney Clearwater    | 100–200          | Medium      | No dedicated page |
| Foreclosure defense attorney Tampa     | 100–200          | Medium      | No dedicated page |
| Estate planning attorney Wesley Chapel | 50–150           | Low         | 404 error         |
| Construction attorney Tampa Bay        | 50–150           | Low         | No dedicated page |
| Real estate attorney Clearwater FL     | 100–200          | Medium      | No dedicated page |
| Business attorney Tampa Bay            | 100–200          | Medium      | No dedicated page |
| Medicaid planning attorney Florida     | 100–300          | Medium      | No dedicated page |

Across your 8 practice areas and 7 locations, there are **56+ high-intent keyword combinations** that have no dedicated page on your website. These searches represent real people looking for an attorney right now, and your competitors are capturing them.

## COMPETITIVE CONTEXT

### Who You're Competing Against

Your competitive landscape splits into two tiers. The strategy we're recommending is designed to win in both.

#### TIER 1 — REGIONAL POWERHOUSES

Firms like Florin|Roebig and Morgan & Morgan dominate broad personal injury keywords with massive content libraries, national PR coverage, and domain ratings of 45–70+. You are not going to outrank them for "personal injury attorney Florida" — and you don't need to.

These firms are almost entirely PI-focused. Your estate planning, construction law, foreclosure defense, and corporate practice areas are open competitive space they are not fighting for.

#### TIER 2 — LOCAL TAMPA BAY FIRMS (YOUR REAL BATTLEGROUND)

For searches in Clearwater, Wesley Chapel, Dunedin, New Port Richey, and your other markets, you're competing against local solo practitioners and small boutique firms with domain ratings between 5 and 20, minimal content, and no structured data. These firms are significantly weaker than McFarland Gould in every measurable dimension — they just happen to have location pages and you don't.

**Your competitive advantage is significant.** No other multi-practice firm in the Tampa Bay area has your combination of 80-year history, 7 offices, and 8 practice areas. The strategy below turns that into rankings.

OUR APPROACH

# The Four-Phase Strategy

We build your SEO authority in four sequential phases. Each phase creates the foundation for the next. Results begin appearing within 30 days of Phase 1 completion.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                            |

Monthly Deliverables

Location Pages

Dedicated, schema-optimized pages for each of your 7 offices

Content Creation

Attorney-attributed blog posts, practice area expansions, FAQ content

Technical SEO

Schema markup, sitemap, GSC monitoring, Core Web Vitals

Citation Management

NAP accuracy across 67+ directories for all 7 office locations

Link Building

Bar associations, chamber directories, legal industry listings

Monthly Reporting

Rankings, traffic, GBP insights, and strategy review call

PROJECTED OUTCOMES

What to Expect

These projections are based on your current baseline, competitive landscape, and the scope of work outlined in this proposal. Local law firm SEO typically yields measurable results within 30–60 days of foundational fixes.

| METRIC                  | BASELINE (EST.)       | 3 MONTHS      | 6 MONTHS    | 12 MONTHS       |
|-------------------------|-----------------------|---------------|-------------|-----------------|
| Organic Monthly Traffic | 300–500 sessions      | +30%          | +80%        | +200%           |
| Top-10 Keyword Rankings | <20 keywords          | 40+           | 80+         | 150+            |
| Indexed Pages           | ~25–35 pages          | 50+           | 80+         | 120+            |
| Local Pack Presence     | Limited (2–3 offices) | 4–5 locations | 6 locations | All 7 locations |
| Domain Rating           | Est. 15–25            | 20–25         | 25–30       | 35–40           |
| GBP Profile Views       | Baseline              | +25%          | +60%        | +100%           |

INVESTMENT

Engagement Options

We offer two engagement structures. Both include the full scope of work outlined in this proposal.

RECOMMENDED

\$ \_\_\_\_\_/mo

12-Month Partnership

- ✓ All 7 location pages built and optimized
- ✓ Full schema implementation (LegalService, Attorney, FAQ)
- ✓ Citation management — all 7 offices
- ✓ 2–4 blog posts/month with attorney attribution
- ✓ Service + city combination pages (Phase 2–3)
- ✓ Link building — bar associations, chambers, directories
- ✓ Monthly strategy call + performance report
- ✓ Google Business Profile management
- ✓ Priority support response

FLEXIBLE OPTION

\$ \_\_\_\_\_/mo

3-Month Engagement

- ✓ All 7 location pages built and optimized
- ✓ Full schema implementation
- ✓ Citation management — all 7 offices
- ✓ 2 blog posts/month
- ✓ Monthly strategy call + performance report
- ✓ Google Business Profile management
- ✓ Option to renew at 12-month rate after 3 months

Both engagements include a **one-time onboarding and technical setup** in the first 30 days covering GSC configuration, sitemap submission, schema deployment, and full baseline audit. Work begins within 48 hours of contract execution.

## WHY SHARK BRANDING SOLUTIONS

# What Makes Us Different

We are a Wesley Chapel-based AI visibility and branding firm that specializes in helping Tampa Bay businesses compete in the new search landscape — one where Google AI Overviews, ChatGPT, and Gemini are increasingly influencing who potential clients find and trust.

We are not a national agency with a managed account model. We are local, we are in your market, and we build strategies based on what is actually happening in Tampa Bay search right now — not templates from other regions.

We are also the marketing partner for the North Tampa Bay Chamber of Commerce, which means we understand the local business community your firm serves, and we have a front-row seat to how AI and search behavior is changing for your potential clients.

**We built this proposal from a live audit of your website.** Every finding in this document reflects your actual current state — not a hypothetical. You can verify every gap we identified within minutes of reading this.

## GETTING STARTED

## Next Steps

- 1 Review this proposal** with your partners. We are happy to schedule a call to walk through any section in detail or answer questions about methodology.
- 2 Select your engagement option** — 12-month partnership or 3-month flexible — and we will send the service agreement and invoice within 24 hours.
- 3 Onboarding call** — Within one week of contract execution, we schedule a 60-minute kickoff call to collect access credentials (GSC, GBP, website admin) and align on priority order.
- 4 Work begins** — Wesley Chapel and Clearwater location pages go live within the first 30 days. You will see your first ranking movements within 30–60 days of those pages indexing.
- 5 Monthly check-ins** — You receive a performance report each month and a strategy call to review what's working and what's coming next.
